**RMC Resort Management becomes the first Hilton Head Island accommodations company to be certified by the South Carolina Green Hospitality Alliance.**

*-Environmentally friendly lodging conserves resources, saves money and attracts customers-*

**HILTON HEAD ISLAND, SC** – The South Carolina Green Hospitality Alliance recently recognized RMC Resort Management, for their commitment to the environment and to the Island by naming five of their properties to the Green Alliance.

Spinnaker at Shipyard, Southwind II, The Village at Palmetto Dunes, Ocean Cove & Sand Shares each participate in recycling, use of green cleaning products, high efficiency light bulbs & filters, low-flow plumbing, energy star appliances, linen reuse & other initiatives that conserve natural resources. President of RMC Resort Management and Hilton Head Accommodations Joe Nahman stated, “Green initiatives are not only good for business, they were and still are an integral part the development of Hilton Head Island, and our visitors not only appreciate it, but demand it. We are proud to be part of this organization and to be recognized for our conscience efforts to build visitor satisfaction and preserve Hilton Head’s environment”.

The South Carolina Green Hospitality Alliance is a program of the South Carolina Hospitality Association and the South Carolina Department of Health and Environmental Control Office of Solid Waste Reduction and Recycling designed to help hotels, motels, restaurants and other hospitality facilities go green.

The hospitality industry is a large consumer. Each facility purchases goods and services, creates and disposes of waste, uses energy and water, and, just like any individual, leaves an environmental footprint. Through its sheer size, the hospitality industry has a huge impact not only on South Carolina’s economy, but on the state’s environment.
